

Summer Holiday Homework

When we return in the autumn term, all of our learning will be based around the topic of space; we will be studying the text "Cosmic" by Frank Cottrell-Boyce.

Over the holidays, please make an object for our topic table in class. This object can be anything linked with space. For inspiration, I have given you images of things that you could make but, as always, if you have any other ideas - that is also fine. This homework must be in school by **Monday 6th September 2021**.

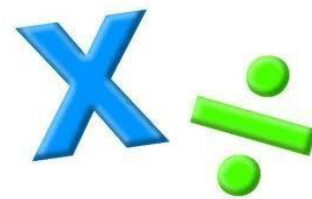

Once you have created your object, I would like you to talk about it with the class, explain how you created it and how it links to our topic. The objects that you create will be central to our learning and will go on our topic table display. I'm very excited to see your creations!

Times Tables

It's really important that you continue practising all of your times tables. Some websites you can use to help you:

<https://www.topmarks.co.uk/maths-games/hit-the-button>

<http://www.johngom.com/>

Spelling

It is essential that you practise your spellings throughout the break too.

Reading

Summer Reading Challenge 2021

The Summer Reading Challenge is Back!

This year's theme is Wild World Heroes.

Pack your bags because we're headed for Wilderville! It's a pretty cool place but there are lots of things that the Wild World Heroes can do to make their town even better for the people and animals that live there.

Join the Wild World Heroes for the Summer Reading Challenge and discover how you can make a difference to the environment too. Wild World Heroes will feature amazing books, awesome rewards and plenty of ideas for taking care of our environment.

Are you excited to join the Wild World Heroes this summer?

For your summer reading, I would like for you to focus on the Summer Reading Challenge. However, if you would like to access even more books you can use the links below:
