Visitors' use of personal devices and mobile phones policy

We understand that you may need to use your mobile phone or device to take or make calls or notes whilst on our school site. However, we would ask that:

- you do not take any photos, videos or other recordings of children without consent of the Headteacher
- you only use your phone in areas designated for administration e.g. offices
- mobile phones or devices are not taken into toilets / changing areas
- if you wish to connect to our internet then you read and sign our Acceptable Use Policy

Thank you for your help and support
