

## Badgers Class

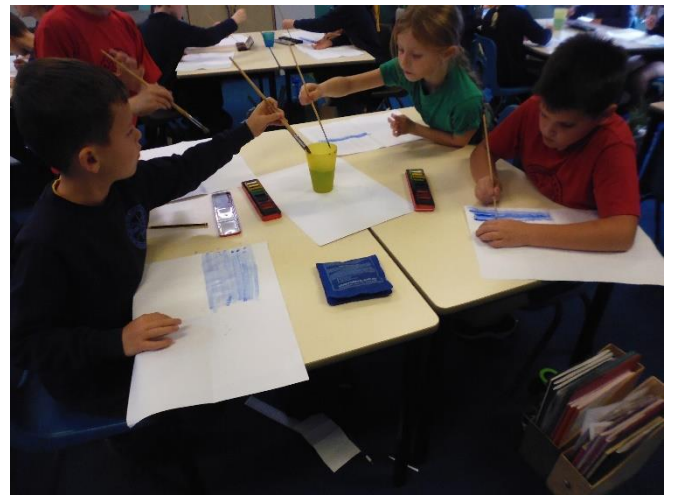

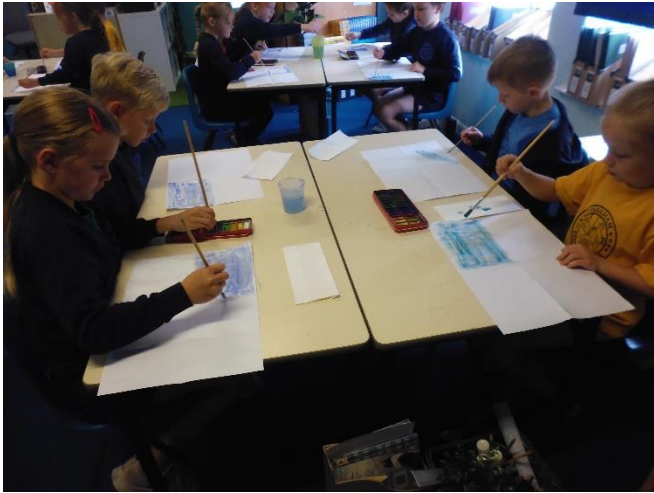

*John Chapter 10 Verse 10 – I came that you may have life; life in all its fullness.*

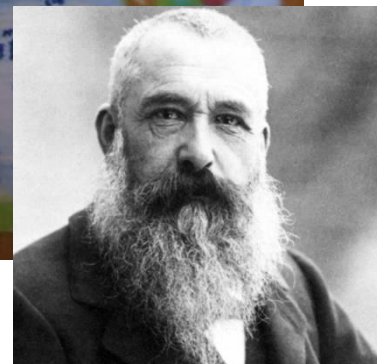

Our first Topic this year was "Make a splash!". In **English**, we used the core text Flotsam and used this as inspiration to write some great diary entries from the magical camera's point of view. Look at our fabulous final quality writing outcomes alongside our amazing holiday homework creations. We are so proud of our work!

In **Art**, we painted with watercolours to create some water themed pictures in the style of Monet. We learnt the techniques of layering, blotting and swirling.

v

We had an amazing **Roots to Food** day where we cooked Spanish meatballs from scratch. We prepared all the ingredients ourselves and then cooked them to create a delicious meal. We loved the tasting our meals at the end!

We have enjoyed learning in our **forest**. We made a camp fire and cooked smores over it. We have also made dens in the woods and completed a tree trail with blindfolds!

In **maths**, we have been learning about shapes and measurement as well as place value and addition/subtraction. We use lots of manipulatives and equipment in our maths lessons to help us to learn.

In **Design and Technology**, we created some dioramas of an underwater scene. Our designs had to have moving parts incorporated into them. We enjoyed working with a partner to create these.

In **Science**, we acted out being a molecule and showed changing states by our movements. We also investigated how sound travels by making paper telephones. We used instruments to show the properties of sound such as high, low, loud and quiet.
