Accidents:

The main Accident Book is located in the School Office. There are also two smaller Accident Books which are taken outside by staff on playground duty and MDMS in order to record ALL accidents and incidents regardless of severity.

Within the Accident Book is a list of children who have particular/severe medical needs that could impact on any first aid offered, details of their medical conditions are enclosed. This list is referred to by staff BEFORE administering first aid.

In the case of ALL accidents, the first person on the scene is to record the following information in the Accident Record Book as soon as possible:-

Name of child/adult
Date
Time
Exact location of accident
What happened
Treatment given/action taken
Name and title of person recording details

A carbon copy of the Accident Record Book notes will be sent home to parents for their information. Parents will also be spoken to, regarding the accident, by the member of staff dismissing their children.

Parents will be informed immediately in the event of serious injury. Parents will be informed of any injury through the use of the Accident Form. When necessary an injured child will be taken to hospital either by ambulance or transported by car with two members of staff. When a pupil is taken to hospital the following information is required:-

Their full name
Address
Parent telephone number/contact number

Name of family doctor
Known religion
Known medical conditions, e.g. asthma

This information can be gained from the Parents Consent form, a photocopy of which should be left in the Office if the form is taken.

Major incidents and serious injuries are to be reported to the Local Education Authority's Health and Safety unit as quickly as possible and on the appropriate accident report form HS 157. A serious injury is one where the consequences of the accident go beyond the day of injury. If an employee or pupil's injury is deemed 'significant' and/or is sent to hospital following an injury, it must be reported (on Form HS157) to KCC and sent to the Health and Safety Executive within seven days of the accident .

Should an investigation be necessary into any incidents then form HS 160 must be used to record investigation findings. Copies of all forms must be retained by the school.

If any accident to a pupil or employee resulting in a fatal or major injury (defined and listed in Appendix A) and/or results in a being sent to hospital, it will be reported to the Health & Safety Executive Incident Contact Centre immediately by telephone on 0845 3009923. The details must be confirmed on Form F 2508 and sent to the HSE within ten days.

Injuries to pupils during play activities in playgrounds arising from collisions, slips and falls are not reportable unless they are attributable to:-

the condition of the premises (e.g. potholes);
plant or equipment;
lack of proper supervision

Fatal or major injuries to pupils occurring on school visits or activities off the school site, such as field trips or sporting events, must be reported in the same way as if they had happened on the school site.

'Near miss' incidents are to be recorded at the back of the Accident Report Book.

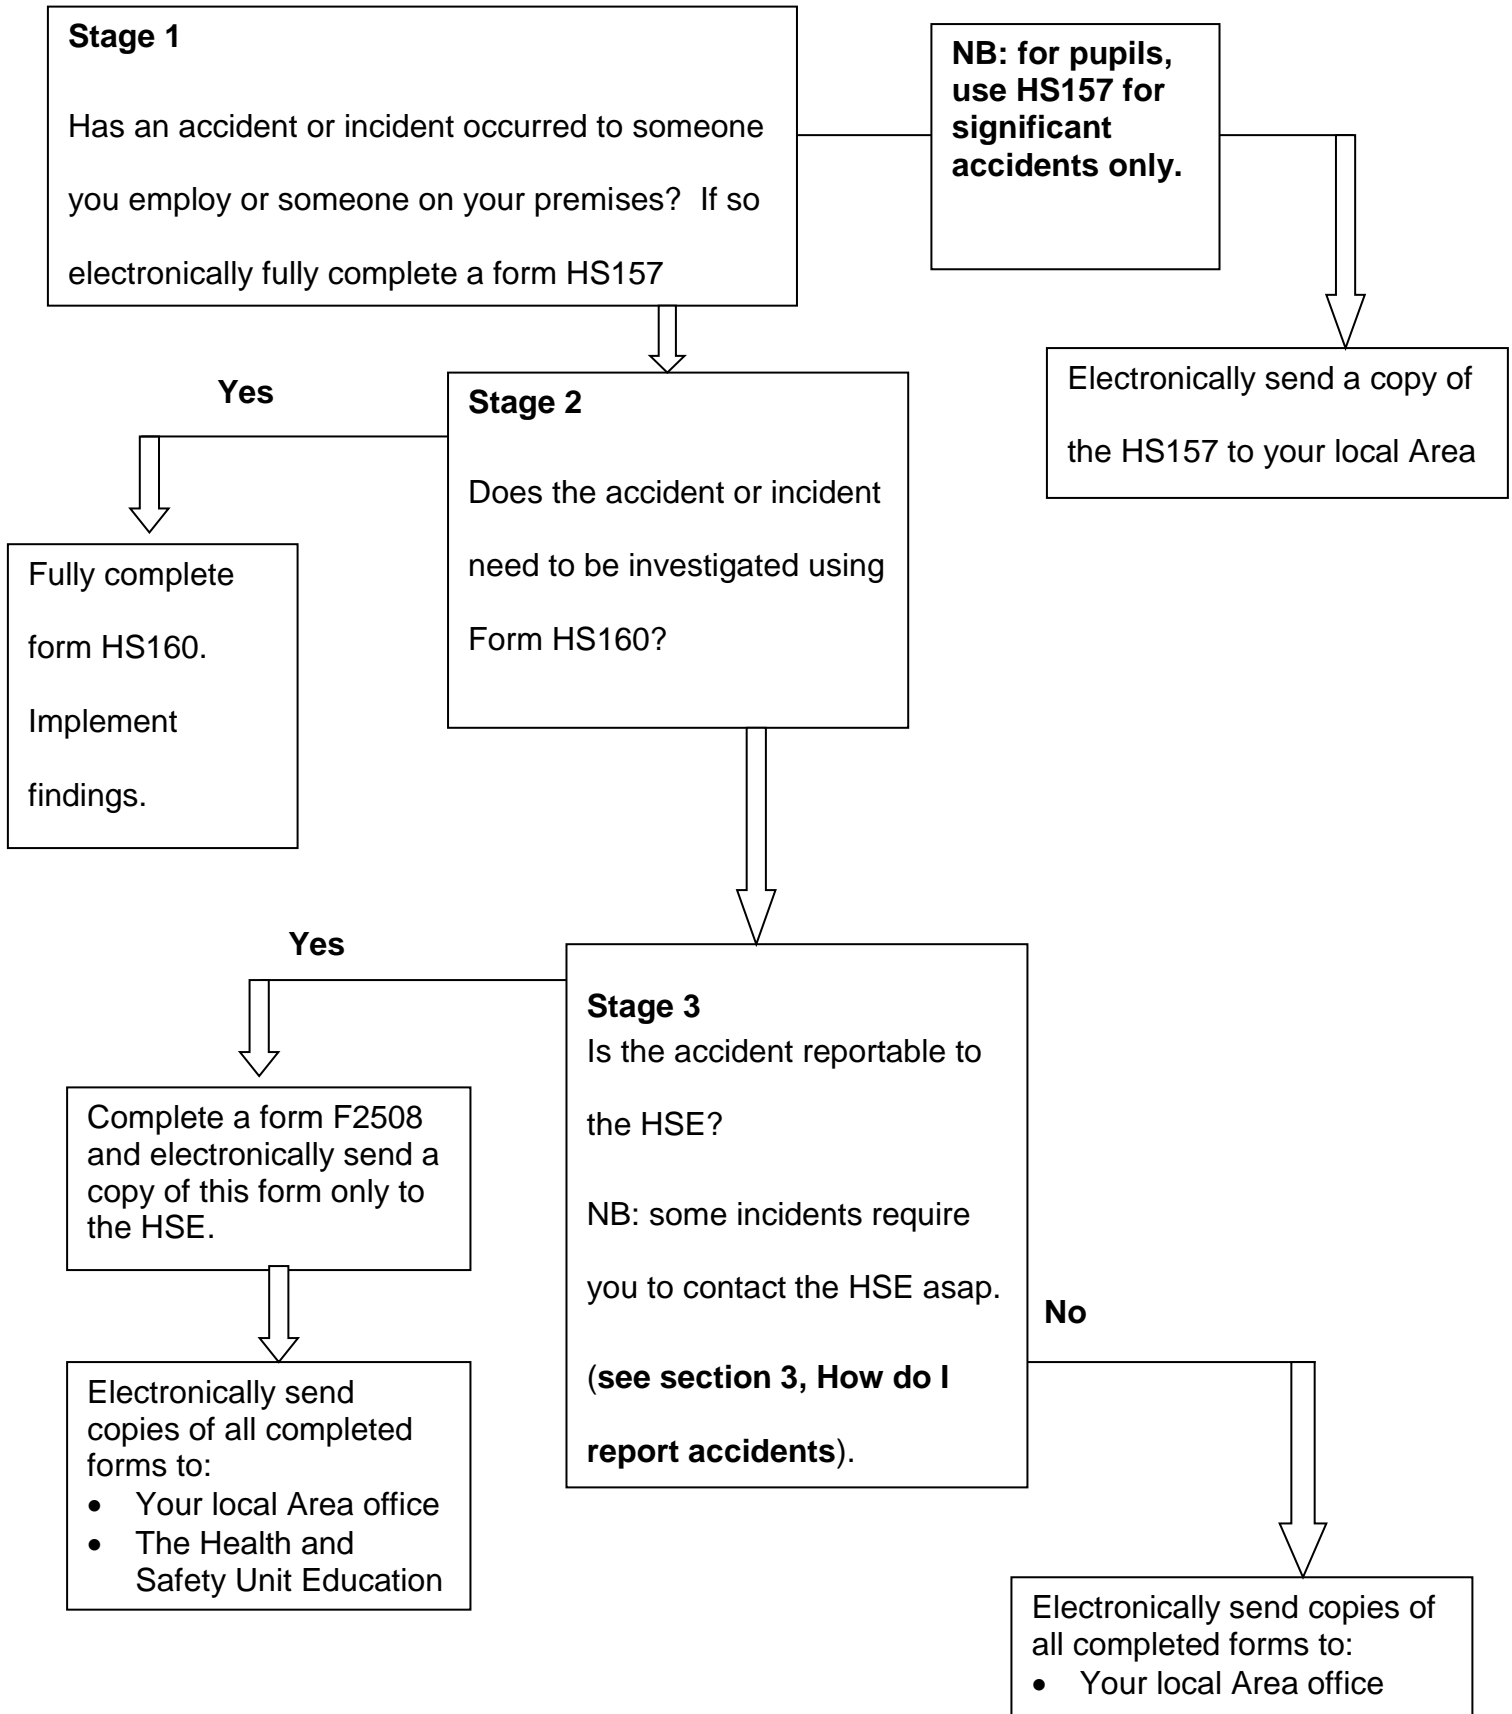

The Accident Report Book will be examined by the Headteacher who will produce a report for the Resources Team in order to determine any 'patterns' in the occurrence of accidents/incidents so that action may be taken, where appropriate, to prevent further occurrences. This is completed three times each academic year. Details of all HSE referrals/reports are listed and discussed with the Resources Team too.

If in any doubt on reporting procedures refer to the flowchart for further advice.

Should a child suffer an injury the duty teacher/mid-day supervisor will undertake an initial visual assessment of the injury. If the injury requires immediate treatment (e.g. Bleeding or bumped head) they will be escorted in to a qualified First Aider by a duty adult.

Flowchart for the reporting of accidents

Follow stages 1-3 of the flowchart and report accidents as appropriate.

CHILDREN WITH MEDICAL CONDITIONS

It will be the parent's responsibility to inform the Headteacher in writing of medical conditions concerning their child's health and welfare. This information is asked for at the beginning of each academic year.

A list of children suffering from medical conditions will be displayed in the staff room, all staff have a copy of this. Children who have persistent medical conditions will also be added to the list.

As mentioned previously, this list will be added to the accident books so that those administering first aid are aware of conditions that may affect the first aid given to the child.

Health Care Plans for children with medical conditions are produced by Mrs Bamber in consultation with teachers, parents and Headteacher, these are kept in the school office with a copy for the children's teachers too. Parents also have copies of their child's Health Care Plan.
